

September 8, 2022

Greetings!

September already.....seems like summer came and went in a blink!

We recently had one nursing home resident contract COVID from visitors. The nursing home had not had any positive staff for three weeks. Please if you visit, recognize that even mild symptoms can be COVID. We would be more than happy to test you at the door if you request it. Better safe than sorry!

Our nursing home remains in outbreak due to our positive resident. All of our other programs are not in outbreak status at this time.

Our activity department is participating in a fundraiser to replace our two aged buses. One of the busses is a 2001 model. The other is a 2007. Both buses have a "gazillion" miles on them! We need to raise about \$80,000 for each "new" used bus. Please help us on behalf of our residents and tenants! Please go to our website (www.gssltd.org) and make a donation at the "blue button" on the face page. Our wonderful tenants and residents enjoy getting out of the house. Please check out Good Shepherd's Facebook page for more info on this fundraiser!

Please continue to pray for Good Shepherd and our nation,

Thank you.

Deb Captain
